

LITEPAPER

A Universal Skill Set For Everyone & Everything.

skillzeb.io

Zeb [] believes skill identity leads to economic identity for all.

[Creative Commons CC0 Universal \(Public Domain Dedication\)](#)

A collaboration between Zeb and *selfdrivenOcto*
(slfdrvn.io/octo)

On & Off-Chain

Powered by Cardano & entityOS

WHY

Skills identity leads to economic identity.

A common set of skills identifiers for everyone and everything allows for better representation of achievements.

WHAT

A universal skills set (data-structure & core skills set) that cover the set of skills required for a modern society and recognition of human needs & wellness.

Share skills between organisations and learning communities like slfdvrn.io - making it easier for learning-partners to support learner growth as a continuum.

HOW

Collect existing public domain skill sets into a rationalised set of core skills; categorised by:

- # Capacity (Aware, Capable, Knowledgeable & Natural),
- # Levels (1 to 20),
- # Skill Domains (66)

Managed using <https://app.skillseb.io> (Available Q2 2023)
& searchable using <https://skillzeb.io/explorer>, APIs & On-Chain
(Cardano Blockchain)
